2016 Beginners/Transition Tour Event Volunteer Scorekeepers

We will have ONE volunteer scorekeeper that will walk along with each group in the Beginners/Transition Tour Events (Ages 8-12). Parents will be allowed to serve as a scorekeeper for their child's group and will also be allowed to volunteer for more than one event. If a parent is found to be giving advice or coaching their child, the player will be disqualified from that event as per the USGA rules of golf.

What volunteering involves:

Volunteering as a scorekeeper will involve counting and recording strokes for each member of your group. Each junior will be keeping an official scorecard for another member of his/her group. You will verify with each member of the group that their score is accurate after each hole and also double check the hole by hole scores before each junior signs their official scorecard and turns it into the on-site administrator in the scoring area. You will wear a Minnesota PGA Volunteer Badge and will be able to walk along with the group. The scorekeeper **MAY NOT** give instructional advice, line-up putts, tend the flagstick, select clubs, nor put pressure on the junior. If there is a rules decision the volunteer will flag down one of the on-site administrators to make a ruling.

How to sign up to be a Volunteer Scorekeeper:

If you would like to volunteer to be a scorekeeper please check-in the day of the event at registration with the on-site administrator. They will let you know if a volunteer is needed for your juniors group or another group.
